

## Eco Range

### Energy-saving and compact design

Eco units are designed and manufactured as energy efficient filtered water systems that offer customers the very best in innovation, superior performance, space-saving and reliability.

#### Features and benefits

##### Safety first

Splash free boiling water delivery electronically varies the water flow, slowing momentarily to eliminate splashing as the water first enters the cup. All Billi dispensers are supplied standard with a safety switch.

##### Adjustable chilled temperature

A simple adjustable control knob allows the chilled water temperature to be raised to 15°C or lowered to 6°C for perfectly chilled, refreshing drinks, with your required temperature being quickly reached and maintained.

##### Premium filtration

Billi's range of premium filters are equipped with a unique multi-layered structure which provides superior water quality.

##### Eco sparkling system

The CO<sub>2</sub> injection system used in the Billi Sparkling range ensures the saturation of CO<sub>2</sub> in the water is high which means it has a better life and, consequently, taste.

##### Adjustable sparkling water

Adjust the level of sparkling to suit your taste with adjustable controls up to 5 bar of CO<sub>2</sub> pressure.

##### Ice Bank cooling technology

Billi's Ice bank technology has a chilled reservoir where both sparkling and chilled water supply passes through. In doing so, the dispensed water temperature is consistently chilled, also providing a higher level of carbonation.

#### Water options

Option	Boiling	Chilled	Sparkling	Ambient
Eco				
Eco Sparkling				

#### Configuration

Billi under-counter units have one of the smallest installation footprints, making the most of your space.

## Technical specifications

Model	Suggested number of people	Boiling water delivery cups per hour	Chilled water delivery cups per hour	Current Required amps	Height (mm)	Width (mm)	Depth (mm)
Eco XL Chrome	Up to 10	90	60	10	340	180	500

1 cup = 170 ml.

## Compatible dispensers

Eco units are available with a choice of XL Levered, XT Touch & XR Remote dispenser styles in a range of finish options including Chrome, Matte Black, Matte White & Rose Gold.

XL Levered Dispenser

XT Touch Dispenser

XR Remote Dispenser

## Installation

With a focus on space saving, Billi units are often less than half the size of comparative products. This allows for the most economical use of under-counter space.

Typical installation set-up - the image is for illustrative purposes only.

Eco under-counter

70mm & 120mm riser and font\*

\* Optional matching riser and font accessories available for XL Levered, XT Touch & XR Remote Dispensers.
